MIDNIGHT MISSILES.

CURRENT EVENTS TELEGRPHED TO THE NEWS.

Robbed and Outraged—Murder—Greek Brigands---Continued Suffering in Ireland, Etc.

WASHINGTON, March 1,—The jury in the case of the negroes—Babe Bedford, Sandy Pinn and Edward Queenan—charged with the murder of George P. Hirth on the evening of the 7th last January, by hitting him on the head with a stone tied in a handkerchief, kicking him after he had fallen, also robbing him of a gold watch, a ring and a small sum of money, came into c urt this morning and rendered a verdict of guilty, as indicated. On Friday evening Miss Leins, residing on the Capitol Hill, while on her way to St. Joseph's Catholic Church, was knocked down, stunned, and carried into an open lot by a negro, who outraged and robbed her of a satchel and prayer book. Nearly two hours before she reached home her throat was black from choking, one ear nearly severed from the head, and her body covered with bruises. She lies in a critica. condition. The negro is named Thos. Smathers, was arrested yesterday, and is recognized as her assailant. At midnight about one hundred men went to the Seventh District Station House and demanded the prisoner, but he had been removed to another station, and was guarded during the night by an entire reserve police force.

Murdered.

PETERSBURG, Va., March 1.—Information is just received of the murder of Richard Nubie by Thomas Conway, in Surry county, a few days since. Conway charged Nubie with having had improper intercourse with his wife, and, on meeting him on the road, shot him, killing him instantly. Conway then fled, and has not yet been captured.

The Herald Fund.

NEW YORK, March 1.—A special from London to the *Herald* says that the second meeting of the "Herald Relief Fund" Committee was held Friday. It was thought that the approach of the actual famine had been met for the moment, to a considerable extent, by the action of the various committees already organized. It was agreed that the greatest pressure of poverty will be felt between now and next harvest, and that the committee should prepare for the inevitable increase of misery which must occur before autumn.

James Gordon Bennett, who was present, informed the committee that the fund would be placed at their disposal at once, when the committee delegated two members to visit the distressed districts immediately, with the power to act in cases of special need, and to report at the next meeting of the committee, which will be held in Dublin, Ireland.

LAHORE, March 1.—A dispatch says: The English envoy to Ghuze has been unsuccessful in his negotiations with Mahomed Jan Abdal. Rahman Khan is communicating from Balkh with Mohamed Jan and Ayoob Khan. The atter is reported to have received an offer, from the Shah of Large, to bribe him for the surrender of Herat, but declined at the instigation of Abdul Rahman Khan.

Foreign Flashes.

PARIS, March 1.—The municipal election in St. Thomas, D'Acquin Quarter, yesterday, resulted in the return of M. Barthelomi, Bonapartist.

ST. PETERSBURG, March 1.—The *Vedomosti* says that the female Nihilist agent, Vera Sasulitch was arrested at the instance of Gen. Trepoff, her intended victim who recognized her at the theatre.

LONDON, March 1.—A dispatch from Constantinople reports the Greek brigands have sent a letter demanding £10,000 ransom within ten days or they will send Col. Synge's head to Salonica.

Reception to General De Lesseps.

NEW YORK, March 1.—A reception and dinner were given Saturday night to M. De Lesseps by the Latos club. In response to the address of welcome, De Lesseps said that when he went to Washington as a private citizen of France, to see the President, he would be able to assure him of the correct relation of the American Republic to the progress of the canal.

Debt Statement.

WASHINGTON, March 1.—The debt statement shows a decrease of the public debt for February of $567,201,975; cash in the Treasury, $196,951,653.53; certificates, $10,082,600; silver, $9,369,920; certificates of deposit outstanding, $11,485,000; refunding certificates, $1,883,950.

Dismissed for Disobeying Orders.

NEW YORK, March 1.—A special dispatch from Richmond, Va., says: Information has just been received here of the dismissal of twenty-seven students from Virginia Military Institute at Lexington, for disobedience of orders and for breaking of arrest. The dismissed students had requested Gen. Francis H. Smith, the superintendent, to grant them additional suspension from duty to enable them to prepare for examination in descriptive geography, which he refused, as he was on the point of leaving for Staunton on a business visit. The students refused to obey the commandant of the Institute, in the superintendent's absence, and were dismissed upon his return. A few of the class declined to join in the rebellion, and three or four of those who did, returned to duty. The superintendent has issued an order in the interest of discipline, setting forth the facts in the whole affair. The mutiny began on the 24th ultimo, and dismissals followed promptly.

Chinese Exodusters.

ST. LOUIS, March 1.—Two car loads of Chinamen from San Francisco, passed through here last night, en route to Philadelphia and New York. Five hundred more are to follow soon.

Moffet Liquor Law Repealed.

RICHMOND, March 1.—Both Houses of the General Assembly to-day passed a bill repealing the Moffet Bell Punch Liquor Law, and re-establishing a license system which is to go into operation on May the 1st. The vote was nearly unanimous.

The Needs and Lackings of the South

Donan in the Deadwood Pioneer.

The coal fields of Alabama are estimated to contain 52,000,000,000 bushels of black diamonds; but, though they contained 52,000,000,000 times 52,000,000,000, it would do but little good. Southern forges and southern grates will continue to smoke with Pennsylvania or Ohio coal, the daughters of southern cotton raisers will continue to wear New England woven calico and domestic, and the sons of southern cattle kings will continue to stamp around in Massachusetts made boots, until southern people add 52,000,000,000-fold to their stock of social and political common sense. The antediluvian styles and notions of the days of Don Quixote and Sancho Panza's mule will keep the grandest resources on earth forever undeveloped. Hyperborean Dakota is infinitely outstripping, in every element of progress and prosperity, the most favored regions of the South. She is growing while those sunny regions are declining. She is building cities while theirs are tumbling down and decaying. She is opening thousands of new farms, while theirs are being left to weeds and desolation. Her mines are drawing in capital and enterprise and muscle from every land beneath the sun, while theirs with all their exhaustless riches, are lying, as they have lain for ages, undisturbed by sound of pick or shovel. Dakota's humblest miner lives better, sees more of the great, rushing, busy world, and enjoys more of its advantages than the haughtiest average southern planter who glories in his thousands of acres of half-tilled paradise, satisfies his dyspeptic stomach with "hog and hominy," and shouts pine-top whisky peans to such ranting caricatures on statesmanship as Blackburn and Ben Hill. The world in its grand flight forward will drop the South off behind unless she wakes up to an appreciation of the fact that this is the nineteenth century instead of the fifteenth. She must lay aside ten thousand foolish and obsolete ideas and policies. She must learn that capital will never go where the capitalist cannot hold and freely express any political sentiments or opinions without forfeiting his social standing. She must learn that the intelligent, enterprising laborer, without which she must forever languish and all her magnificent resources lie undeveloped, will never venture where gentility is estimated by whiteness of hands and number of pompous old defunct grandfathers. She must squelch her dueling fools like Burke and Hearsay, and her obstreperous political fools whom heretofore she has been pleased to regard as statesmen. She must open more schools and scatter educational light far and wide among her people. She must guarantee absolute liberty of opinion and expression to every man, of every nationality and hue, and understand that he is the worthiest citizen who does and can do most for the real good of his region and his people. She must remand to eternal sepulture the stalking ghosts and skeletons of a forgotton era, who gibber over the musty, mummy creeds of the days when Bob Toombs was proposing to call the roll of his niggers from the top of Bunker Hill monument. She must rise from the dismal ash-heaps of the past, and, turning her face to the future, press forward, side by side with Yankee, Briton, Scot, Irishman, German or colored brudder, in the grand race of modern progress, in which brain and brawn, enterprise, push and common-sense alone can win. She has incalculable natural advantages and resources, and ineffable folly alone has prevented their development. She could become the garden-spot of this continent, but her "statesmen" and their followers have kept her comparatively a pauper inhabited desert; a waste, howling wilderness of rampant and proscriptive politics and antiquated social whimsies. She needs, as we have often told her, less politics and more work, less pretensions and more money, less brilliant-crackbrain orratory and so-called statesmanship, and more hard, practical "horse-sense." She wants fewer dueling gentlemen and gasconading country-saviours, and more intelligent, enterprising laborers, mechanics, manufacturers farmers and business men.

Let her look at the Great Northwest, let her look at Dakota, the territorial queen of that Northwest, and learn to prosper and progress, to labor and to live.

Seymour on the Third Term.

The New York Herald.

During the day Governor Seymour strayed into the main vestile of Bagg's Hotel in Albany, and was conversed with for a few minutes by your correspondent. The distinguisded gentleman looked remarkably well, but could not be drawn into political discussion. He evidently wished to fight shy of the entangling alliances of party warfare. Agriculture, the wonderful growth of the United States, and kindred topics were discussed with the eloquence so characteristic of the ex-Governor, but the trouble of the Democratic party or the remedies to be applied seemed to be a forbidden ground upon which he did not care to enter, He made the assertion, however, that the Democrats were likely to wait and ascertain what their opponents were likely to do before taking the aggressive in the National campaign, and also expressed the opinion that harmony and union would be soon brought about. He also asserted that the Republicans did not want a positive man in the Presidential chair, the history of the organization having proved that fact conclusively. While dealing with such a point it might be inferred from the Governor's remarks that he did not look upon the ex-President's chances of a third nominati n being at all bright, the Republicans being likely to take up a candidate that would harmonize and suit all classes and factions within their ranks. "The strong man" idea received at his hands a castigation in the remark: "The people must control the Government and not the Government the people. Business interest is the great lever that guides the country and dictates its policy. We have more talent and genius in the United States now than in any country on the face of the globe.' Alluding to the political history of the ex-President, he said: "The ex-President was a Democrat, and voted for Buchanan for President.

Work for the Extra Session.

Oxford Free Lance.

That body (the extra session) should confine itself strictly to the consideration of the object for which it has been convened—with one exception—and that exception is the passage of the School Bill which came to naught at the regular session through an unpardonable neglect.

We do not look upon this as originating new legislation and although we suppose the bill would have to be enacted *de novo*, yet it would still be but carrying out a measure already adopted at the former session and which failed to become a law only by failure of the presiding officers to affix their signatures.

This bill is imperatively demanded by the people of the State and the Legislature, when it meets, should rectify the fault of its officers at the very earliest moment.

MR. WORTH'S LETTER.

HE ADVISES THE CONVENING OF THE GENERAL ASSEMBLY.

It is Best for the State to Make No Further Investment in any Internal Improvements.

NORTH CAROLINA,
TREASURY DEPARTMENT,
Raleigh, Feb. 21st, 1880.

To His Excellency, Thomas J. Jarvis, Governor:

SIR: I favor and advise the convening of the General Assembly in extra session, for the purpose of considering a proposition for the purchase of the State's interest in the Western North Carolina Railroad, and for the completion of the road, made by William J. Best and others, and such other propositions as may be made for the same purpose, and submit briefly some reasons therefor.

The State has engaged in Railroad, Navigation and other enterprises, almost from their beginning, either by becoming a stockholder or otherwise lending its aid. Such a policy has been disastrous, and the failure to receive returns from the State's investments is just such as other States have experienced in like enterprises.

The following exhibit is sufficient, without extended comment, to show the results of our investments:

Wilmington and Weldon Railroad Company.—Amount of stock in this company, held by the State Board of Education, and for many years a part of the school fund of the State, was $400,000. It was sold by the Board in 1869 for $148,000, and invested in special tax bonds which are worthless.—Lost.

Wilmington and Manchester Railroad Company.—Amount of stock held by Board of Education $200,000. Sold by the Board in 1869, for $10,000, and invested in special tax bonds.—Lost.

Roanoke Navigatio Company.—Since 1832 the State has been a stockholder in this Company to the amount of $50,000, (increased from a previous investment) and for many years the stock has been almost entirely unremunerative. An act was passed March 18, 1875, directing the dissolution of the company. The interest of the State was sold under execution and brought less than fifty dollars.

Fayettevi le and Western Plank Road Company.—The State subscribed to the stock of this Company in the year 1849 to the amount of $120,000, and issued bonds for its payment. Dividends were received by the State for a few years, but were much less than the interest paid by the State on its bonds. The road has gone down and the State's interest is absolutely worthless.

This remark applies to the Fayetteville and Centre Plank Road and Fayetteville and Warsaw Plank Road, which the State aided by the issue of bonds in payment of stock, authorized by acts of 1854–55, the former $50,000, the latter $10,000.

Neuse and Tar Rivers.—Under act of January 27th, 1849, $65,000 of bonds were appropriated for improving the navigation of these rivers, and a similar appropriation of $15,000 under act of Feb. 14th, 1855, was made for Tar river, all of which is absolutely worthless.

Cape Fear Navigation Company.—Stock, $82,500; sold by Board of Education in 1869, for $8,250. Money paid into the Treasury.

Atlantic and North Carolina Railroad Company.—The State contracted a liability, on account of this company, by issuing bonds in payment of stock and loan, to the amount of $1,466,500. Nothing has ever been received from this investment. The private stock in the company is now selling, as I am informed, for less than five cents in the dollar.

Albemarle and Chesapeake Canal Company.—Under the act of 1856 the State became a stockholder in this company to the extent of $350,000, paid in bonds. This liability has been reduced by the return to the State of $100,000 of old bonds, in exchange for a like amount of stock surrendered under act of 1879. No money derived from the investment.

Western Railroad Company (from Fayett ville).—Original liability on account of this company, incurred in 1858 and 1860, was $800,000. Nothing has been received from this investment. Nearly two hundred shares of this stock have recently been sold for two dollars and fifty cents per share.

Cape Fear and Deep River Navigation Company.—The State assumed the bonds of the Company and issued its own bonds, under acts of 1854 and 1858, to the amount of $400,000, in aid of this Company. Entirely lost to the State.

Wilmington, Charlotte and Rutherford Railroad Company.—The State exchanged bonds with this Company to the amount of $2,000,000, under act of 1858, but has received no income from it, and lost all claim to the stock or property of the road.

New River Navigation Company.—By act of February 14th, 1855, the State subscribed $20,000 to the capital stock of this Company, which is a total loss.

North Carolina Railroad Company.—The outstanding liability on account of this Company is principal, $2,795,000 (originally $3,000,000) and past due interest over $500,000. What the fate of this stock will be is an open question. Amount of stock $3,000,000. But few dividends have been paid into the Treasury.

Western North Carolina Railroad Company.—Original appropriation of bonds under act of 1854–55, $4,000,000. Of this amount $957,000 have been retired in exchanges with other companies for stocks or bonds since the war, under authority of law, leaving amount of bonds outstanding $3,043,000. All lost.

It is not necessary to state in detail the recent liabilities and expenses incurred by the State on account of this road, amounting to $1,300,000, as full information concerning them has already been given.

Raleigh and Gaston Railroad Company.—The stock of the State in this company was $682,500, and sold in the year 1866, under ordinance of Convention of 1865, for a like amount of State bonds, at their then depreciated value.

No mention is made of turnpikes and other roads aided by the State in cash appropriations, amounting in the aggregate to at least $50,000, and which have become worthless.

The aggregate of the liabilities and investments as stated, is $15,600,000, to which it is proper to add the interest on the bonds endorsed or issued by the State, paid in cash to the first year of the war, $2,200,000, making the total cost in connection with these investments $15,686,500. I make no mention of bonds issued or stock acquired under ordinances of Convention of 1868, or acts of 1868 and 1869, as they are not recognized in the compromise of the State debt.

The dividends received by the State from its investments have been far less than the interest paid by the State on its bonds.

The above exhibit, ought, I think, to satisfy every citizen of the State that it is best for the State to make no further investment in any internal improvements, and I strengthen my advice to you, by urging that the General Assembly be convened for the purpose of selling the Western North Carolina Railroad, and, as soon as possible, sell all the interest the State has in all other corporations.

I am surprised to hear, as a serious objection to selling this road, that it is to pass into the hands of *foreigners*, when it is well known that a large part of our roads now belong to foreigners, and that nearly all of the three million of bonds outstanding against the North Carolina Railroad are held by non-residents of the State, with a lien that virtually makes them the owners of the road. I have yet to learn that it makes any difference who builds a railroad to make it useful to the country, whether citizens of the State or non-residents. The State can enforce the law against *foreigners* as well as our own citizens.

It is due to Mr. D. W. Bain, Chief Clerk, to say that the above statistics and data were furnished by him at my request, and are the result of his examination of the records here; and his long service in this department and familiarity with its details, are sufficient evidence of their correctness.

Very respectfully,
J. M. WORTH.

STATE NEWS.

[Correspondence under this head is furnished by regular contributors to the NEWS.]

GUILFORD.

GREENSBORO, Feb. 28.—There has been nothing this week specially to mark any event further than the trade of the week has been quite satisfactory, the weather being fine and a large number of wagons and teams from adjoining counties in, taking away some of the wholesale new goods from those houses that have received new ones.

In furs this week the purchases have been unusually large, possibly more than ever bought in one week in the previous history of this large and growing trade.

In my next I propose to give you some figures in this business that are not now at hand.

The death of one more of Guilford's old citizens is announced to-day, that of Joseph Hoskins, Esq., of Summerfield, of paralysis, of which he was stricken a year or two ago, and ever since to some extent. He was a zealous advocate of the C. F. & Y. V. Railroad, through whose land it is to pass. He was a very conscientious Quaker and advocate of temperance.

It is currently reported that one of Greensboro's fair daughters is soon to take quarters in old Orange. We shall miss her, but Orange will be the gainer, and especially the fortunate man who is to wed her, (names hereafter).

Next week is our court, Judge Seymour to preside, I think. No criminal cases.

GREENE.

WILLOW GREEN, Feb. 26.—We had a good rain on Saturday. The weather is now fair and pleasant.

Trade is about as usual for Spring. White shad are now plentiful, brought to your door at 75 cents a pair.

A very respectful negro man by the name of Ben. Anderson, died a few days since, near this place. Tenant of Elias Turnage, Esq. We are sorry to be deprived of such a man, but the wills above must be done.

Gov. Jarvis, with the consent of his council, have pleased the people of this section by calling the Legislature in extra session, and the hope of those with whom I have talked is, that that honorable body may see fit to close the trade with Mr. Best, thereby ridding the people of the State of an enormous tax.

A negro man by the name of Ben Colvard stole a horse from Mr. McLawhorn, of Pitt county, a few days since. The horse has been recovered, but the negro is still at large. We have no objections to such as he going to Indian; or a warmer clime, if it pleases the gods so to call them.

A very fine horse, three years old, belonging to Menan Patrick, a young man, and a student at Maj. Bingham's school, died near this place day before yesterday. It will be sad news to the boy, not on account of the intrinsic value, but the high appreciation placed upon the colt.

R. A. L. Carr, Esq., of this place, and by the way, one of the best practical farmers in the eastern counties, has just completed a compost heap, or a guano bed, the component parts of which is estimated to be worth eight hundred dollars. That will make cotton get up and get. H.

DAVIDSON.

YADKIN COLLEGE, Feb. 28.—The weather is warm for the time of year, and the buds indicate an early spring.

Edward Omen, an enterprising young man of our town, was married to Miss Emma Redding, of Ashboro, N. C., on Tuesday, February 24th, at the bride's residence. Last Thursday a grand reception was given the couple, at the residence of Mr. Omen's mother.

Mr. Wesley Byerly, a farmer near this place, on the 25th February plowed up a kettle or pot of white soapstone, holding about one-half bushel. It is evidently an Indian relic. Mr. Byerly does not gratify inquiring curiosity, but refuses to tell the contents of said pot. He advises all to rise early and plow deep, and turn up pots while others sleep. P.

WARREN.

WARRENTON, Feb. 28.—We hardly know how to begin our correspondence, nothing of any interest scarcely having transpired.

We must say that the weather has been lovely. We don't think woodsellers have realized many large sales during the winter that is nearly gone. It does seem, when we take into consideration the unparalleled loveliness and beauty of the weather (in our experience), that the winter now upon its ear has been almost but a dream. This warmth of the weather, we think, has disappointed the expectations of some of our skaters, there not having been any ice upon which they could sport.

Miss Mary Hycock, an old lady in the neighborhood of seventy years, died in this place on Tuesday evening last. She was a schoolmate with the Braggs of this State, of whom the State has just reason to brag. May the goddess Fortunes be ever so propitious as to grant our State more such noble true men.

Another hop took place at the Carolina House last Friday night. The young men are determined that the ladies shall have every opportunity of speaking soft, soothing words to calm their anxious and agitated feelings.

Our Superior Court meets next week—Monday. We hope more business will be transacted this term than the last. Cases continued for some years stand on the docket for trial. G.

A Hollow Movement.

Philadelphia Press.

In Pennsylvania everybody knows that the movement for General Grant's nomination is hollowness itself. In New York this is also now demonstrated. The intelligence of both states is against it. The sober judgment of the party revolts at it, and the common sense of the country presents an inflexible hostility to it.

By Mr. Chittenden, of New York, a bill providing that after the 1st of July, 1880, the duties on carpeting and carpet rags of every description shall be limited to fifty per cent. *ad valorem*, in cases where higher duties are now imposed and collected.

By Mr. Muldrow, of Mississippi, a bill repealing all the acts granting lands in the Indian Territory to railroads, conditioned on extinguishment of the Indian Territory.

By Mr. Turner, of Kentucky, a bill abolishing all the tariff duties on printing type, agricultural implements, &c.

By Mr. Herndon, of Alabama, a bill amending the act relative to the Mexican Commission Awards.

The morning hour having expired, Mr. Weaver, of Iowa, attempted to obtain the recognition of the Speaker, and introduce his Greenback resolution, but the Speaker ruled that the regular order was the consideration of the motion coming over from February 16th to the suspended rules, and to adopt a resolution for night sessions on March 3rd and 10th, to consider the pension bills. The resolution was adopted.

On motion of Mr. Kimmel, of Maryland, the rules were suspended, and the bill passed appropriating $350,000 for the purchase of a site for the post-office in Baltimore.

Mr. McLane, of Maryland, moved to suspend the rules and consider the bill amending the Pacific Railroad Sinking Fund act.

Before reaching the vote on the motion the House adjourned.

The bill will not come up again until next Monday.

The Journey of the Empress Eugenie to Zululand.

Daily Telegraph.

The departure of the ex-Empress for Zululand is definitely fixed for March 25. Her Majesty will embark in the *German*, one of the Union Steamship Company's boats, accompanied only by one member of her household, the Marquis de Bassano, son of the Duc de Bassano, and by Sir Evelyn and Lady Wood. Some ladies, the widows of officers slain in the war, will also take part in the mournful journey, but their number is limited. The *German* will proceed directly to the Cape, without stopping at St. Helena. She will remain three days at Cape Town and then start for Natal, arriving at Durban towards the end of April. After resting some days in the Colony the Empress will travel by land to the valley of Ityotyazi, the scene of the sad disaster. About a fortnight will be needed for this part of her journey, which will be so arranged that her Majesty will reach the donga on the ill-fated June 1, at the very hour of the struggle and the death. On June 3 the Empress will start on her homeward route, returning in another of the Union Company's steamers; but this time a few hours will be spent at St. Helena. Her Majesty will return to Chiselhurst on July 26. The two English servants of the late Prince Imperial will be in attendance on the Empress during the whole of the journey to Zululand and back.

A Heart Breaker.

Cincinnati Enquirer.

It would break the great, big, throbbing heart of the State of Indiana to see Wm. H. English push Tom Hendricks clear off the Presidential platform.

Dr. Wm. Alex. Greene,

Macon, Ga., writes: "I have tested the virtues of Colden's Liebig's Liquid Extract of Beef in my private practice in cases of general *debility, weakness, depression, dyspepsia*, loss of appetite and nervous afflictions, and have found it the best remedy I *ever used*.

JOHN SHERMAN'S WORK.

Pinchback Nominated to Check a Grant Movement in Louisiana.

WASHINGTON, Feb. 27.—R. B. Hayes to-day nominated P. B. S. Pinchback to be Naval Officer at New Orleans, in place of James Lewis. Pinchback and Lewis are both colored men. The latter is a very violent Republican, while Pinchback is more moderate in his political notions. Pinchback came to Washington several weeks ago to capture the Naval Office. Charges had been preferred against Lewis. Mr. Hayes informed Pinchback that these charges were not sustained, and that he, therefore, should not remove Lewis. Pichback returned to New Orleans in high dudgeon, and immediately began to organize a movement to secure a Grant delegation to the Chicago Convention from Louisiana. This manoeuvre alarmed John Sherman, who has been manipulating the New Orleans Custom House in the interest of his Presidential aspirations. Sherman called upon Mr. Hayes and insisted upon the removal of Lewis and the appointment of Pinchback. Civil service rules were again broken, and the desired appointment was made.

The Party Will Act.

Manchester Union.

The idea that any one man is to name the Democratic candidate for the Presidency is supremely ridiculous. The party will name the candidate, with surprising unanimity, and then proceed to elect him by a decisive majority; after which, on the 4th of March, 1881, he will be inaugurated President of the United States, and no returning board thieves, visiting statemen and electoral commission frauds or other Radical devices can stand in the way of the consummation.

A Short But Excellent Bill.

Washington Post.

The shortest tariff bill ever introduced has been brought forward by Mr. Morrison, of Illinois, which proposes a reduction of one-half of the present duties on nearly every item in the list. This measure has the merit of brevity and simplicity, and is probably as positive and advance as can be made in the line of free trade without the intervention of a special commission of experts.

No Loss of Confidence.

Detroit Free Press.

A Detroit grocer had a patent money drawer attached to his counter the other day and it was no sooner in working order than his clerk tendered his resignation.

"You going to leave? Why, what's the matter?" asked the grocer.

"I don't want to stay where a person has lost confidence in me."

"Do you refer to that new till?"

"Yes."

"Well, you are very foolish. I haven't lost the least bit of confidence in your honesty, but I simply argued that if you had less change to squander outside I could have more of your time in the store! Loss of confidence! The idea is absurd!

The satisfied clerk took off his hat and returned to duty.

The New York Sun's Politics.

New York Sun.

Mr. W. C. Stevens of Mississippi asks us for information which we are perfectly willing to impart:

"The *Courier-Journal* of Dec. 9, 1879, says that the *Sun leans* towards the Democratic party, but is a Republican newspaper. We look upon you as a true Democratic journal. Is this so?"

The *Sun* believes in democratic principles; it believes in a republican form of government. It labors to inculcate Democratic principles and to help to preserve republican institutions. It also believes in telling the truth without regard to party; and when a newspaper does that effective, it makes little difference, Mr. Stevens, whether or no you spell its republicanism with a capital letter, or its democracy with a big D.

No New Fashion for Washburne.

Cleveland Herald.

It appears that Mr. Washburne was not correctly represented in the statement which appeared in the Chicago Inter-Ocean announcing that he would not, under any circumstances, be a candidate for President. What he did authorize the I-O. man to say was that he was a Grant man first, last and all the same, and that he would not be a candidate so long as there was any chance of nominating General Grant. But, if it should be impossible to nominate the hero of Appomattox, then he would consider himself subject, like any other American critics, to the will of the convention. This is manly and sensible. No American citizen in sound health and clothed in his right mind has any business to say that he will not be a nominee for President if the people call him to that position. We may add that very few men have ever positively refused to accept a unanimous nomination for President of the United States, and, as human nature is at present constituted, very few ever will. Mr. Washburne is not going to set up a new fashion in that respect. Why should he?

A Good Suggestion.

Savannah Recorder.

The Atlanta *Constition* is sounding the prominent men in different counties as to their choice for a Democratic President. Mr. Tilden and Mr. Thurman seem to be the choice of the majority. We would suggest to the *Constitution* that it call upon the press of the State for their choice. It is presumed that editors do a little independent thinking, and have a reason for the faith that is in them. Let us hear from the Georgia press.

Vermont's Perfect Flower.

Washington Post.

Vermont has instructed for Edmunds as the most perfect flower of her civilization. We cannot imagine a more thrilling sight than this adperfrigid section of the north pole marching towards the white house in solemn charge of the amendments. A frigorific wave would be a zephyr to it.

There Will be Grease.

St. Louis Post-Dispatch.

It has been decided in Cincinnati to bait the trap on the Southern train on St. Patrick's day. On the 17th of March the Southern merchants will be invited to visit the city, over the Southern railway, and partake of a free lunch. It was not intended in the first place to have butter on the table, but since the Democratic convention will carry some money to the city in June, it has been determined to give the guests a little grease for their bread.

Blaine Will Not Be Nominated.

New York Sun.

If Grant is beaten in the Chicago convention, will it be Blaine who will carry off the nomination? No, not at all. Blaine is too timid in the fight; he halts and falters. Grant being put out of the way, his friend Washburne will probably be the man.

TILDEN'S TROUBLES.

ATTENDED TO BY MR. WILLIAM ARP.

His Sympathy for a Man who Has Nothing Better Than a Liver-Pad to Clasp to His Bosom.

Atlanta Constitution, 28th ult.

I see you have been polling the towns and cities to find out who our people wanted for President, and it looks like Mr. Tilden is the most popular horse. I suppose that's because he was cheated out of it before, and we are all truly sorry for him. Somehow or other I don't think he is the best man. In the first place, I am afraid he is sickly. Every little while I read about his critical condition. Then, again, I hear he is about to be married, and I'm afraid that will kill him, considering his age and infirmities. Some say he can carry New York, and some say he can't. No doubt he has been a strong man and a smart man, but there is a time for everybody to weaken. Age will tell, especially on an old bachelor who has no wife to nurse him in sickness, and cheer him up in trouble. I'm sorry for a man who hasn't got anything to hug up to his bosom except a liver-pad. I think Mr. Tilden has passed the turn of life, or is passing through it now. He don't talk enough for me. I want him to say something—something pertinent or impertinent. The papers say he claims a right to be nominated, and if they don't nominate him we will dictate who shall be. I don't like that. It's putting a man's selfishness higher than his patriotism. It smacks a little of revenge. I want Mr. Tilden to tell somebody that he does not seek the nomination and he will go for the nominee heart and soul whoever he may be. He keeps bottled up too tight. Is he mad with Kelly yet? Can he harmonize the factions in his State any better than he did last fall? I'm afraid he has lost the lick. Does he consider that the Democratic party is in debt to him? We can hear from Thurman and Bayard and Hendricks, and we know their record and views on all the great questions, but we don't know much about Mr. Tilden.

He hasent got any record that I know of except a canal record, and that's no issue now. Well, I believe he has got a court record about his income tax, and I don't like that very much. Somehow I'm sorter like Judge Wright. I'm afraid he's a Wall street man—a monopoly man, a money ring man. Nevertheless I'm for him if the party says so whether the winds blow any odors from Araby or not, for we can't be worsted. The Judge has been suffering for odors a long time from some Araby over there, but the wind don't seem to blow this way to any extent. Just as well let his nose down awhile or go over to Araby at once and be done with it. The time has come when a man has got to be either a hawk or a buzzard. There's no compromising with the Republican party. For fifteen years we have been hoisting the flag—begging for peace and good will declaring our loyalty, tendering the olive branch, and the more we do it the more they abuse us. What's the use? Aint the Radical papers just as bitter now as they were ten years ago? Let's quit. There's no use in throwing pearls before swine. Judge Wright thinks it would be a splendid compromise—an offering upon the altar of harmony; if the Radicals would nominate some good man for President, and Mr. Stephens for vice-President. That would be very nice for Mr. Stephens, for he wouldent be very far from home no how, but what good would it do anybody else down South. It would be like eating all the meat and throwing the dog a bone. Judge Key is in the cabinet now, and what does that amount to so far as the Democratic party is concerned. If a President or vice-President wants to be liberal and national in his views and his administration of the government, them fellers wont let him. They break him down and threaten and bulldoze him until he surrenders. Mr. Hayes wanted to do us justice but they wouldent let him, and they wont nominate any such man again. The next one has got to be a regular rebel hater, a bloody shirt waiver an outrage shrieker.

There is no middle ground. Ben Hill was right when he said in his Vermont letter, "The Democratic party is the only party in sight with which any man can affiliate who desires to fraternize feelings, nationalize the interests and constitutionalize the government of the American people." Powerful big words, but I think they are all right. Ben does get right every now and then, and he does as well as could be expected considering that he is no blood kin, and came into the family against his will sorter like an orphan hunting for a home. Alek came in with him and got his patrimony. I believe he still has his washing done there, but he gets away off and shakes his fist at the old man. Toombs just wouldn't stand it and has built him a cabin away off in the woods. "The old party ain sight," Ben says. What does he mean by that? Is there another party just out of sight somewhere, some little church round the corner at whose altar some of our folks are worshipping in secret? Somehow I don't understand them words. Maybe Dr. Felton or Judge Wright could rise and explain.

Poll the country a little as you have been polling the towns. So I stood at my gate and very civilly attacked seventeen men as they passed my house, and asked them who was their choice for President. Some of 'em was hauling ore and some going after guano, and some were from Fannin and Gilmer, carrying cabbages to market, and none of them seemed know his own opinion, or care very much about it anyway. One feller asked me if I was a candidate, another wanted to know if I was taking the census. One of 'em said he was for Dr. Felton, and then asked me what Congress was a doing about paying war claims. Them fellers from Fannin and Gilmer thought I was a revenue officer and was going to search their wagons. One man said he was for himself, but nary one expressed any particular preference for me—so I have concluded that the state of the country up here is very much unsettled. Our people don't abound in opinions, but they are very good on a vote when the time comes. Fact is, they are too busy now to ruminate much on anything but their farms. They are plowing and fixing to plant a big crop of cotton and are cutting briars and resetting the fences and burning brush and cleaning things generally, and I reckon that is the best for 'em after all, for there's enough town folks who haven't got anything else to do but talk politics and make up the slate for President.

Yours, BILL ARP.

The Two Prime Contestants.

Boston Post.

According to the present outlook, Grant and the bayonet or Democracy and a free ballot are the two prime contestants for popular favor at the ensuing election.

But It Can Never Be.

A contest for the Presidency between Sherman and Thurman would bring the United States of Ohio prominently to the front.

DAILY NEWS

TUESDAY, MARCH 2, 1880.

GEO. C. JORDAN, Editor and Propr

THEY say now that General Butler proposes to come on and declare himself a full-grown Democrat with all that the name implies. It will be observed that the third term business is gathering unexpected strength.

MR. BAYARD was too much of a secessionist previous to the war to suit the north, and now he is too far east in his opinions to suit the south and west. Even statesmanship has its misfortunes, but in this instance it is not a misfortune, for Mr. Bayard declares he is no candidate.

OUR SEVENTEENTH VOLUME.

With this number the NEWS begins its seventeenth volume. The oldest daily at the State capital, and among the oldest papers in the State, the NEWS is thankful for past patronage and will endeavor to make itself this stirring year of 1880 more necessary than ever to the reading public.

Founded to represent the aspirations and wants of the people, the NEWS, by its moderate price of $5 for its daily and $1 for its weekly, early put itself in the reach of all. Its past has been successful and it looks to the future with assured confidence.

THE WESTERN NORTH CAROLINA RAILROAD.

It is gravely urged by many of those who are opposing the sale of the Western North Carolina Railroad that it will be comparatively an easy matter for the State to do what the proposed contract with Mr. Best will authorize him to do, viz: to put a mortgage upon the road to an amount sufficient to complete it; and that it is the duty of the State to do so, instead of permitting foreigners to intrude and realize the profits that otherwise would be secured to the State.

One unanswerable objection to the above suggestion is that it would be absolutely impossible for the State to dispose of a single mortgage bond, if issued as they will be issued under the provisions of the contract with Mr. Best, because each bond will contain upon its face a notice that it cannot be foreclosed until the railroad is completed both to Paint Rock and to Murphy, in Cherokee county. With such a condition as that expressed upon the face of the bond, it would be useless for the State to put them upon the market; and if so, how can the State go on in the work except by a continuance of taxation as at present, and by a vast increase of taxation if the State shall continue the road to Murphy. But it is said if Mr. Best can sell the bonds, can not the State do the same? As we understand it, Mr. Best does not propose to sell the bonds, or even to place them upon the market until the road is finished and the condition rendered nugatory. He and his associates have the money with which to finish the road, and they are willing to invest it and wait until the road is finished before they negotiate the morgage bonds. The State has not the money and can not obtain it, except by such taxation as would oppress its citizens and hurl from power any party that would attempt it. How then, if we are correct in our assumptions, and they seem to us to be unanswerable, can the State do what it is proposed to permit Mr. Best to do? And if the State can not do it, why shall we not permit Mr. Best to contract to do it, and thereby relieve the people from taxation?

But it is further said, that the State can at least finish the road to Paint Rock. It cannot do even that without a continuance of taxation, which is getting to be considered onerous and unjust as it is becoming known to the people that it is useless and unnecessary, and besides, the building of the Paint Rock branch alone involves a breach of plighted faith that we should be ashamed of as a citizen of North Carolina, and that would solidify the section of the State immediately concerned against the party that should do it.

We are not of those who believe in the investment of public funds in works of internal improvements for hopes of profits to result therefrom to the State. The past history of the State sustains us in this opinion. As Dr. Worth, the clear-headead and able State Treasurer, says in a recent circular letter, upon the subject of the sale of the road, "the dividends received by the State from its investments have been far less than the interest paid by the State upon its bonds." Independent of the bonds issued by the State under the vicious and fraudulent legislation of 1868 and 1869, the State has expended in the past over fifteen million dollars in aid of works of internal improvement. What has been the profit? Not enough to pay the interest upon the debt. Shall the State make another move in the same direction? Now that the honest and legitimate debt of the State has been compromised and adjusted, or almost so, shall it assume new obligations, and let history repeat itself, and the new debt be in turn compromised and adjusted? Are we to learn nothing from experience?

Let this question of the sale be discussed plainly and practically. Let us not betog the matter with glittering and misleading generalities about State pride and such like; but let it be considered, as it ought to be considered, as a business proposition, made by business men, in which the State is interested in a business way. We yield to no one in our love for North Carolina, and we believe that the best interests of the commonwealth and the fulfillment of her honest obligations to her rock-bound people of the West, require a sale of the Western North Carolina Railroad, to the end that it may be built.

A Paper for all classes of the People and in every Department of life.

Independent and Conservative.

THE SUN is conservative in politics, independent in tone and non-sectarian. Its proprietors point to the principles that have governed it in the past as a guarantee of its course in the future. On all subjects of public interest it will continue to express its opinions, according to its best judgment, with a view only to the promotion of the best interest of the public. All the freshest news, at home and abroad, excluding only that which is prurient or sensational, is given from day to day in its columns. In addition to what is furnished by the Associated Press and by the local reporters of The Sun, no expense is spared to keep its special correspondence, that from Europe as well as from the Pacific Coast, and from its Washington Bureau, abreast of the times, and to supplement it, as occasion may require, at every other point to which the current of events give prominence.

The Financial and Commercial Reports of The Sun contain at all times full and trustworthy accounts of all movements and operations in the leading markets, as well as that of Baltimore, with special telegraph service from New York of the latest stock and other transactions; while its reports of the ruling prices of breadstuffs, provisions, and other leading articles of trade and commerce, will embrace the latest intelligence, both at home and abroad, of each day's doings, up to the hour of going to press.

As a Paper for the People, filled with the freshest and most varied news, The Sun has acquired a reputation which is not surpassed by any of its contemporaries, while its large circulation, not only locally, but in many of the States of the Union, makes it the most valuable medium for all classes of advertisers.

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

MESSRS. WEEKS & POTTER: Gnslemen—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.

NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

MESSRS. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to-day. E. P. DAGGETT.

MILFORD, ME., June 10, 1878.

NOTE.—Reader, don't you think these cures remarkable?

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each, situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

SIDEWALK NOTES.

—Phœnix Fire Company held a meeting last night.

—Judge J. L. Henry is stopping in the city.

—The board of county commissioners met yesterday.

—The balls roll 'til a late hour in Lincke's gymnasium. The boys muscles grow also.

—Only thirty-four thousand dollars of old bonds received for exchange at the State Treasury last week.

—J. H. Cardwell, supervisor of census for this district, has appointed R. W. Best chief clerk in his office.

—Mr. Bills will shortly open a saloon in the building formerly occupied by H. J. Meyers, one door below Briggs & Sons,

—Twenty-nine thousand, eight hundred and thirty-one dollars and ninety-one cents was the total of last week's revenue receipts.

—A patient at the Insane Asylum died a few days since and was buried Sunday. Our sprained ankle prevented us from learning the name.

—The Rev. J. F. Butt, of Charlotte, and father of Mr. Arthur L. Butt, the "Revelation" man, occupied the pulpit of the Edenton Street Methodist Church Sunday.

—A great many opinions on the subject of the sale of the Western North Carolina Railroad are now afloat in the community. The prevalent one being in favor of the sale.

—The first spring month has arrived, though we have had spring weather for a great while. But we merely wish to say spring is here. Now you know it, so "take due notice thereof and govern yourselves accordingly."

—Mr. L. H. Yeargan, of the firm of Yeargan, Petty & Co., has presented the Second Presbyterian Church with an elegant carpet for their new church. The congregation expects to be able to occupy the church in about a month or so.

—The skating rink had an unusually good attendance last night, especially among the young ladies. The masquerade on rollers Friday night was the general topic of conversation, and every one present expressed their purpose to attend en mask. Mr. Dodd has achieved success in his enterprise, and by his gentlemanly attention to the young ladies and gentlemen has made the rink the most popular and regularly attended resort in the city.

—Mr. L. H. Yeargan has presented the Second Presbyterian Church with an elegant carpet to cover the entire floor of the church. It is of rich material, and the figure is a beautiful red coral in a black background. The design is specially gotten up for the church, and will be a handsome and useful adornment to Dr. Atkinson's graceful little church.

—The Panorama at Tucker Hall last night was well attended and gave universal satisfaction. The exhibition was meritorious in every respect, and did not fail to interest and please the audience. The performance will be given again to-night, and no doubt a larger audience will assemble to witness it, judging from the marked appreciation bestowed upon that of last night.

Stylographic Pens.

The most convenient instrument ever invented for writing. It gives satisfaction to everybody who uses it. Messrs. Alfred Williams & Co. have just received a new supply. Price $3, $3.50 and $4.00.

Died,

On Sunday evening, February 29th ult., of pneumonia, Eleanor Mary, daughter of W. H. and Eleanor S. Billings, aged one year, four months and fourteen days. The friends of the family are invited to attend the funeral from the residence of her grandfather, H. D. Coley, Esq., at half-past 3 o'clock this (Tuesday) afternoon.

Masquerade Skating.

On Friday evening there will be a masquerade carnival at the skating rink, in which a number of the artists on rollers will participate. The affair promises to be pleasing to the masquers and to the public. To-morrow evening there will be a practice of the masquers, at which time all who will participate are requested to appear in costume. This is done to give an opportunity for the practice of a number of evolutions, which, when well executed, will add much to the fun.

An Explanation.

We trust that the indulgence of our readers will cause them to overlook any shortcomings in this column. The reporter has had the misfortune to seriously sprain his ankle, and all who have ever passed through a like experience will vouch for our thrthfullness when we say, that one in our condition cannot get around at a very lively gait, even if he is a reporter.

"The South Atlantic."

The February number of this deservedly popular Southern magazine contains several articles of unusual importance and interest. The article by Col. Paul H. Hayne lends a new lustre to the name of "Coleridge." *The Negro Exodus* is treated in an impartial and able manner by Rev. D. J. Sanders, an educated colored man, who was a student for some time at the University of Edinboro, and who now has charge of the colored Presbyterian church in Wilmington, N. C. He is also editor ot the *Afrıco-American Presbyterian*. This paper is worthy of careful perusal, and we commend it to the consideration of Senators Vance and Voorhees.

We recognize the name of Col. Wm. E. Cameron on the title page, once a prominent member of the Virginia press, and now Mayor of Petersburg.

We have not had time to examine the other papers which make up this number. It has, however, the cordial endorsement of many of our friends in this city and State who have the leisure to read, and the ability to judge, of literary merit.

We wish the magazine the success it so eminently deserves, and advise our readers to subscribe to it for 1880.

Supreme Court.

Two Organs.

Regulate first the stomach, second the liver; especially the first, so as to perform their functions perfectly and you will receive at least nineteen twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy natural action to these two organs.

A Benefactress.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. MRS. WINSLOW'S SOOTHING SYRUP relieve the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.

February 18, 1880.

Messrs. Landrum & Litchfield, Abingdon, Va.:—Gentlemen: Inclosed find $5.00 for another half dozen bottles of the Seven Springs "Iron and Alum Mass." My wife's health is better this winter than it has been for years, and I have spent hundreds of dollars for medicines and physicians' bills, but the "Iron and Alum Mass" is the cheapest remedy I have found, and has done the most good, consequently I am encouraged to continue its use, notwithstanding our family physician says it is for RICH PEOPLE with nothing much the matter with them. Well, we are not rich, and I suppose it operates differently on POOR PEOPLE. My wife has been an invalid for years, and is getting better. "Doctors will differ." Send me the MASS. Experience is better than logic. Respectfully,

JAMES M. CARR.

Seven Springs Iron and Alum Mass

This most excellent remedy is becoming more popular with our people every day. It is one of the few medicines that improves on acquaintance—the more one knows of it, the more its virtues are appreciated. Everybody who has given it a fair trial, speak well of it. Our druggists sell large quantities of it. People are not afraid to use a medicine that they know to be efficient for their ailments, and at the same time harmless in its nature. Read what is so aptly said of it, in another column of this paper. Truth is mighty and will prevail. feb27 tf

THE NEW FRYER.

This useful invention meets a long-felt need for a more convenient method of removing Oysters, Potatoes, and other fried food, with greater quickness, and all at once, from the boiling fat in which they have been cooked, and allowing the fat to drain from them while they remain over the fire; thereby getting rid more certainly of the superfluous grease, the objection so often made of the unhealthiness of food cooked in the ordinary frying-pan is done away with.

By detaching the supporter, you have for omelettes and other things for which a drainer is not required, a deeper and better quality of frying-pan than has heretofore been made.

By virtue of a Mortgage given to me by Mrs. Rebecca Perry, I shall offer for sale at the Court House door in the city of Raleigh, for cash, a tract of land lying on the road from Rolesville to Forestville and near the former place, the resale being necessary, owing to some mistake of time in last sale.
